Barcelona, Spain

Physics and Mathematics student at the University of Barcelona, currently in the fourth year of study. I aspire to build a career in research, specifically within the field of mathematical physics. My interests encompass a wide range, from fluid mechanics and electrodynamics to differential geometry and dynamical systems.

EDUCATION

Jun 2025 Sep 2020	Bachelor of Science in Physics + Bachelor of Science in Mathematics <i>University of Barcelona</i> <ul style="list-style-type: none">- Dual-degree program that offers twenty students annually the chance to pursue concurrent studies in physics and mathematics, resulting in two separate undergraduate degrees after five years, as opposed to the eight years required for individual study.- Top 5% of the class.
Jun 2020 Sep 2018	Technological Baccalaureate <i>Mireia Center of Studies</i> <ul style="list-style-type: none">- 1st-ranked student of the class.- GPA: 4.0/4.0

EXPERIENCE

Jul 2023 Jun 2023	Summer Research Intern <i>Mathematics Research Center, CRM</i> <ul style="list-style-type: none">- During my participation in the Barcelona Introduction to Mathematical Research program, I had the opportunity to work on a research project centered around transcendental dynamics within the complex exponential family, focusing on its structural instability for certain parameter values. Additionally, I attended a series of seminars dedicated to advanced mathematics.- Supervisors: Dr. Núria Fagella, Dr. Xavier Jarque.
Oct 2019 Jan 2019	Mad for Physics Program <i>Catalunya La Pedrera Foundation</i> <ul style="list-style-type: none">- Program aimed at first year A-Level students, with special talent and interest in physics, as an introduction to physics research.- Worked on the LHC's ATLAS detector, accelerator beam physics, observational cosmology, and quantum computing, among others.

ADDITIONAL COURSES

Jul 2023 Apr 2023	Python for Data Science and Machine Learning , Udemy <i>NumPy, Pandas, Matplotlib, Plotly, Seaborn, SciKit-Learn, TensorFlow</i> <ul style="list-style-type: none">- Implemented various machine learning algorithms, including k-means clustering, linear and logistic regression, random forest and decision trees, support vector machines, and neural networks.- Certificate of completion ↗
Jan 2023	Machine Learning with Python , Coursera <i>Regression, Evaluation Metrics, KNN, Decision Trees, SVM, k-means</i> <ul style="list-style-type: none">- Learned the fundamentals of machine learning and studied different algorithms, such as linear and logistic regression, support vector machines, k-nearest neighbors, and decision trees.- Certificate of completion ↗

	100 Days of Code: The Complete Python Pro Bootcamp , Udemy <i>Data Science, Automation, Game and Web Development, GUI Creation</i>
Dec 2022	- Developed proficiency in Python programming language through building 100 unique projects over 100 days, including automation scripts, web and app development, data science and machine learning models.
Jun 2022	- Certificate of completion 

AWARDS AND ACHIEVEMENTS

<i>Present</i>	Excellent Performance 800 €
Sep 2021	- Recipient of the University of Barcelona's honor for exceptional academic performance during university studies.
Sep 2021	Honours in Baccalaureate 1,700 €
Sep 2020	- Issued by Generalitat de Catalunya to those students with an excellent academic performance during baccalaureate.
Oct 2019	Mad for Science Program
Jan 2019	- Catalunya La Pedrera Foundation has developed the Mad for Science Program to open the doors of the most relevant research institutes to the most excellent High School students. I participated in the physics course.

LANGUAGES

Spanish	Native Speaker
Catalan	Native Speaker
English	Advanced C1 Level
German	Elementary Level

CODING SKILLS

Machine Learning	Data Visualization	Seaborn
Python	Scikit-learn	NumPy
HTML	LaTeX	Pandas
CSS	C	

VOLUNTEERING AND ACTIVITIES

- **Science Fellows:** initiative of the Catalunya la Pedrera Foundation to develop science communication activities such as expositions in museums and talks in high schools.
- **Problem Solving:** via books and online resources, solving problems is an activity that I perform, enjoy, and continue to learn on a daily basis.
